Subject: Your Protrak Account Created Successfully.

Hi sexahib,
Welcome! Your Protrak account is created successfully.

You can log in by using the following credentials:
**User Name:** sexahib232@erapk.com
**Password:** $FIvE)iF

Following are the steps to change the password:
**Settings > Personal > Change Password.**
Click Here to get started.

You can also download Protrak mobile app:

- For Android: Download from Google Play
- For iOS: Download from the App Store

This is a system-generated mail, please do not reply

Thank You.

# 3 Sub-Modules

This module consists of three key components:

1. Drawings Management
2. Change Request Management
3. Document Center

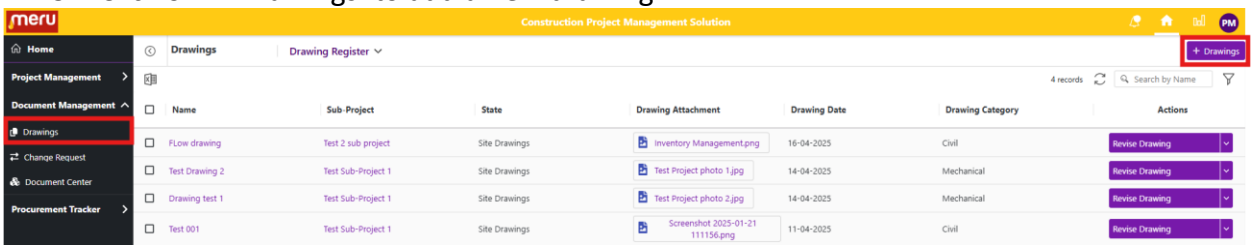
## 3.1 Drawings

User Roles: Project Manager (PM), Planning Engineer (PE) & Site Engineer

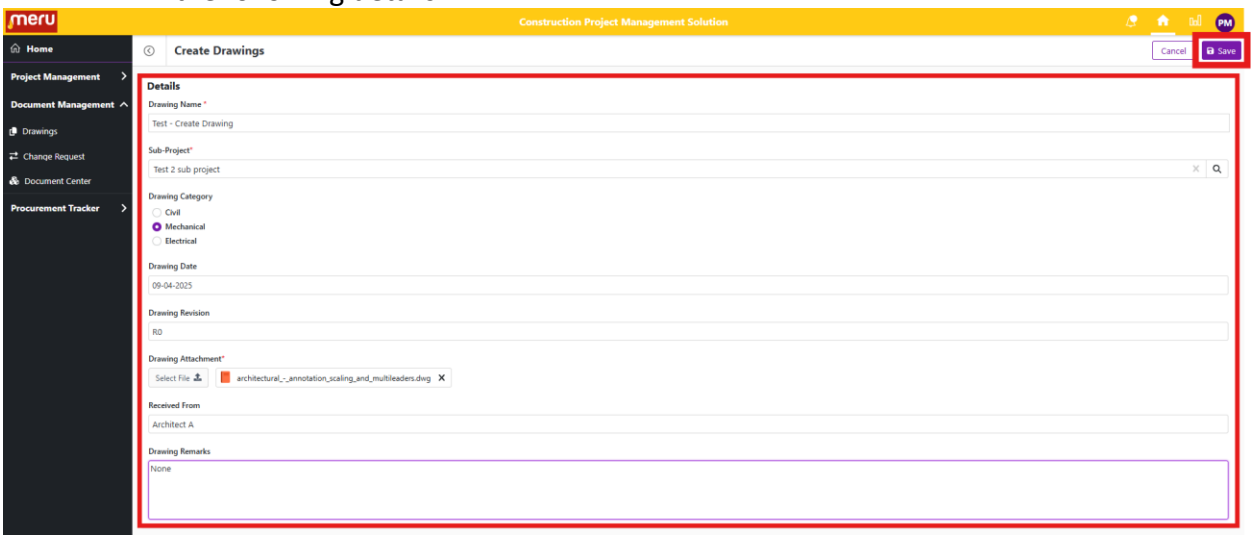
Purpose: Upload, release, revise, and manage drawings.

### 3.1.1 Adding a New Drawing

1. Login to Protrak.
2. Navigate to the Document Management tab and select 'Drawings'.
3. Click on '+ Drawings' to add a new drawing.



4. Fill in the following details:

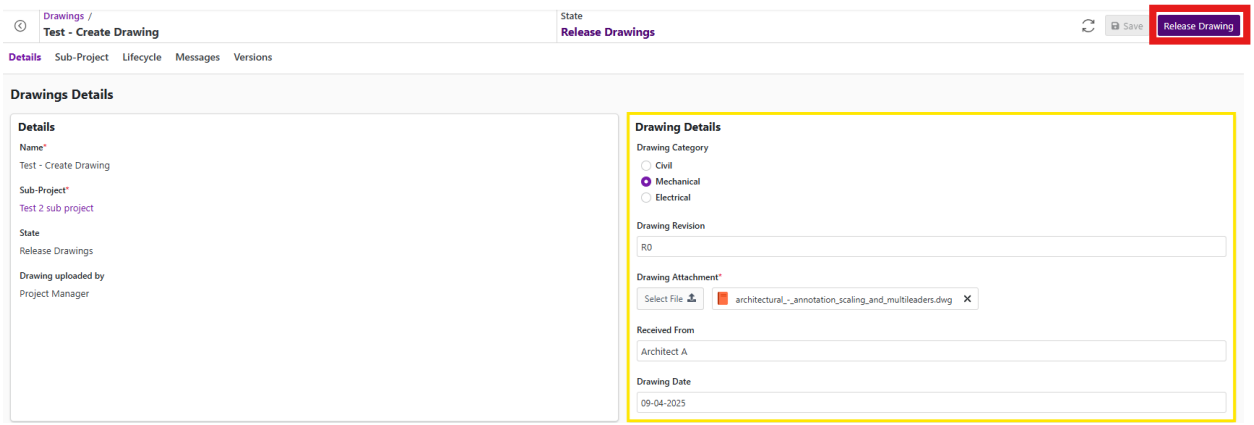


5. Click 'Save' to create the drawing record.

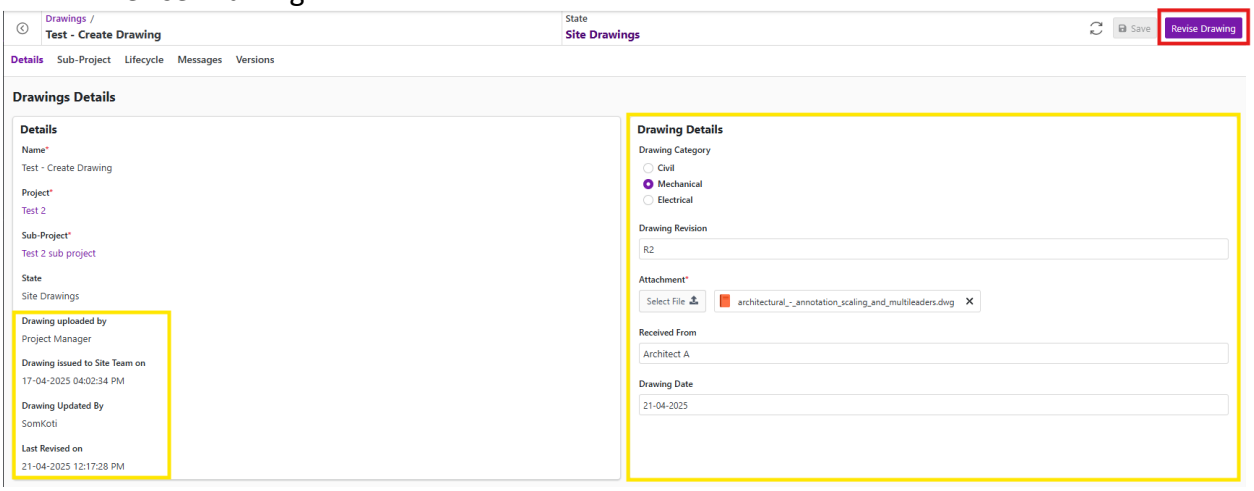
Copyright © All rights reserved

### 3.1.2 Releasing/Revising a Drawing & Version control

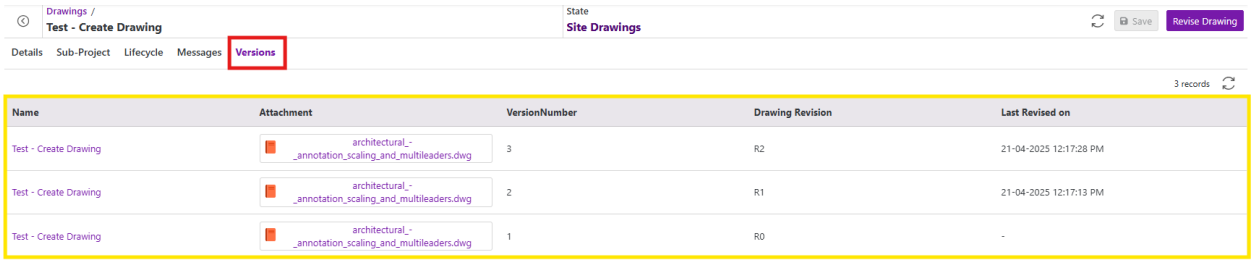
1. Once the drawing is saved, click on 'Release Drawing' to make it available to the Site Team.



2. Once the Drawing is released to the site team, Project manager or Planning engineer can revise the drawing by going to the details of a drawing and updated the info and click on 'Revise Drawing'.

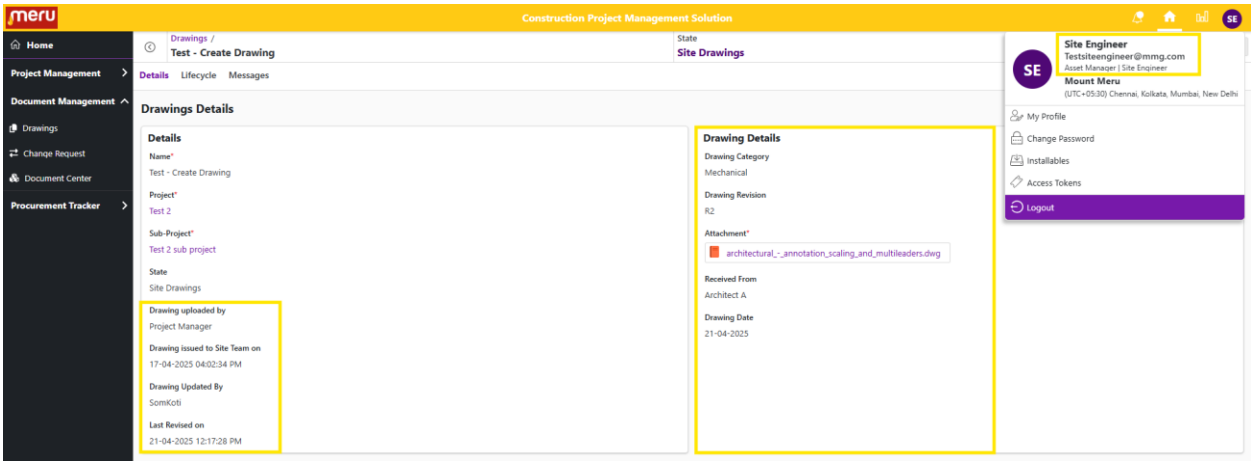


3. Records of all versions are captured for future reference and are placed under the 'Versions' tab



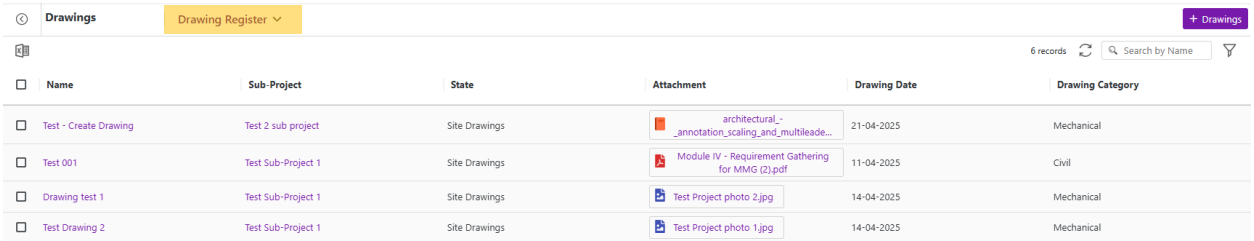
Copyright © All rights reserved 

4. Site Engineers can only view released drawings, and only the latest version is visible to them without any edit options.

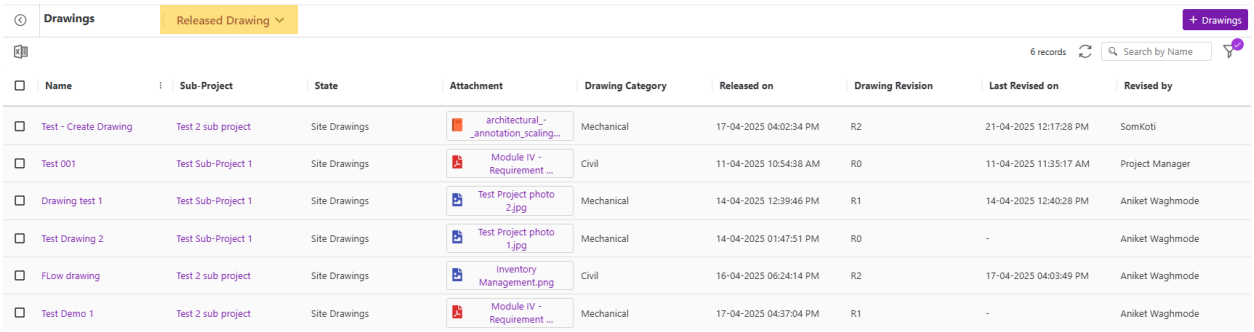


## 3.1.3 Dashboards & Reports

1. "Drawing Register" dashboard provides all the Drawings that can be in Draft or released state

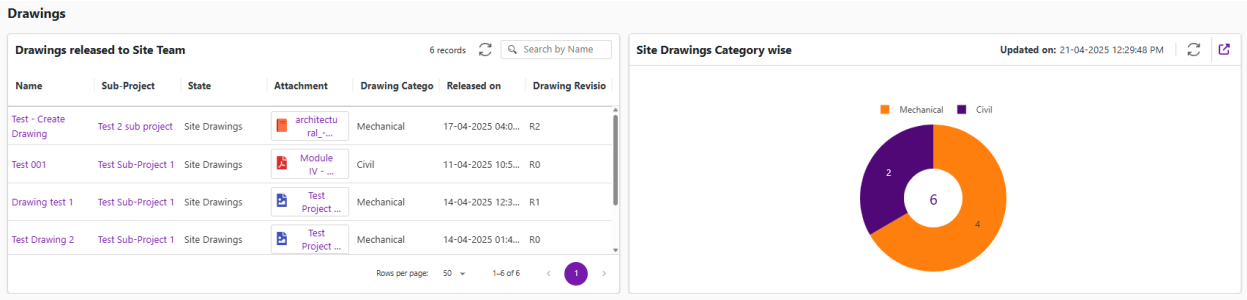


2. "Released Drawing" dashboard provides all the released Drawings



Copyright © All rights reserved 

3. For Drawings sub-module, reports on the home screen provides the user with the dashboard of the latest drawings released to site team & category-wise site drawings.



## 3.2 Change Request Management

User Roles: Business Team, Project Manager, Planning Engineer, SMEs & HOD

Purpose: Submit, review, and approve/reject change requests

### 3.2.1 Creating a Change Request

1. Navigate to the 'Change Request' tab under Document Management.
2. Click + Change' Request.

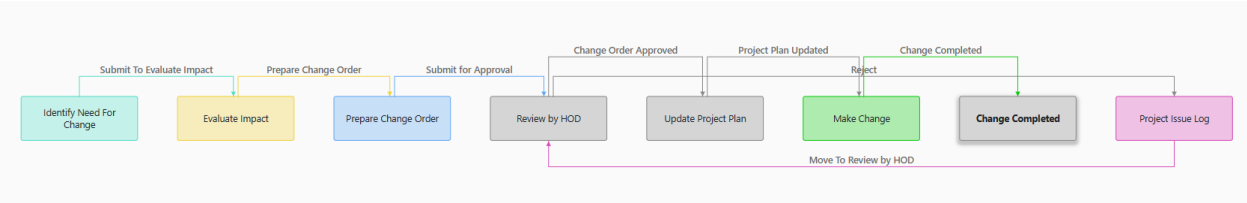
3. Fill in the following details:

4. Click 'Save'.

Copyright © All rights reserved

### 3.2.2 Review & Approval

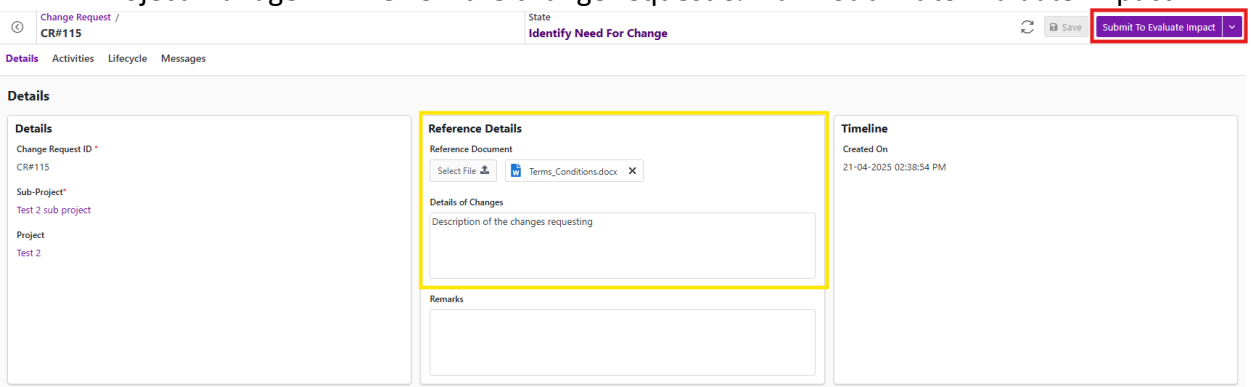
Lifecycle:



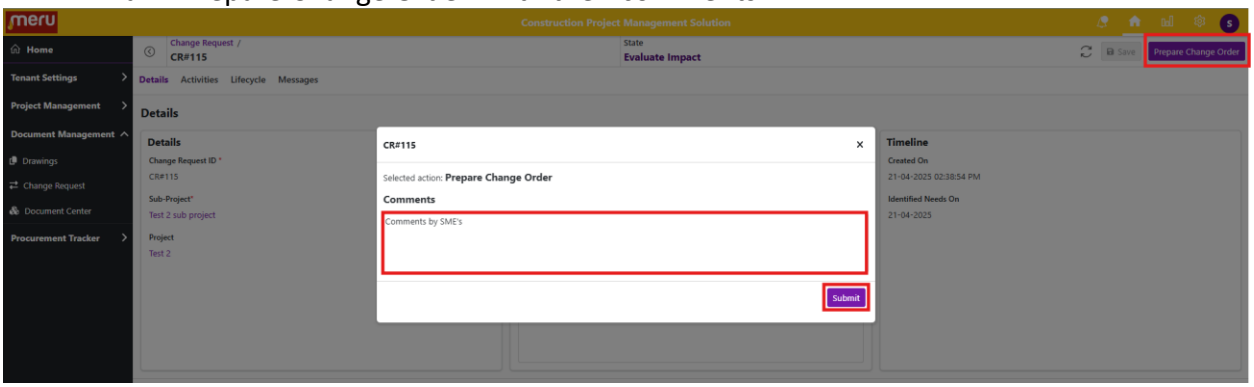
**For the above lifecycle:**

- Business Team/Project manager can create a Change request.
- If approved, will move to next step & If Rejected will move to Project Log Issue state
- Only admin has the access to move back a change request from 'Project Issue log' state to 'Identify Need for Change' or 'Review by HOD'.
- The in-context messaging feature can be used to communicate with team members for any queries
- Assuming all users are approving; the following steps would be as follows:

1. Project manager will review the change request & mark 'Submit to Evaluate Impact'.

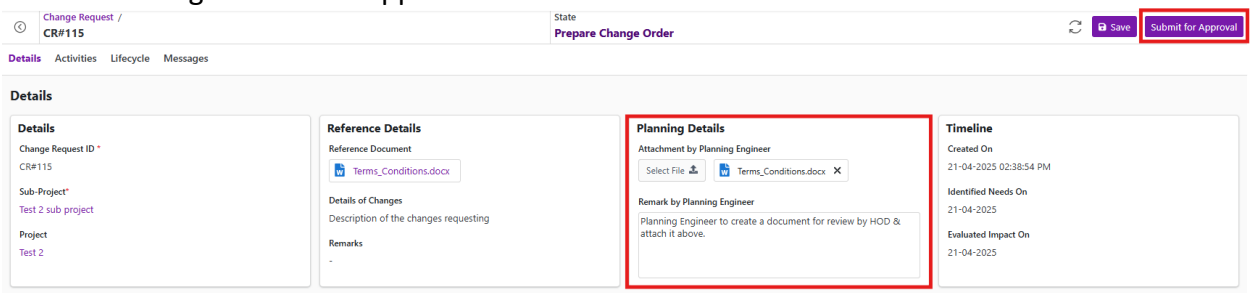


2. Subject Matter Expert (SMEs)/Planning Engineer will Evaluate Impact on the project & mark 'Prepare Change Order' with their comments.

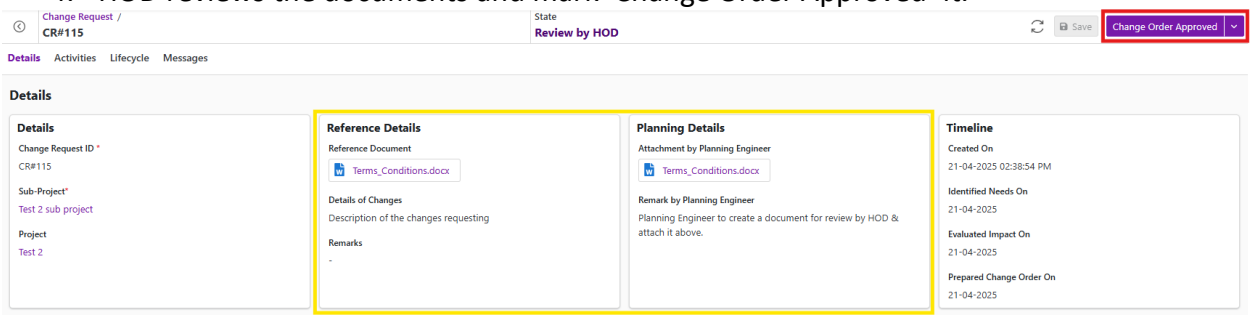


Copyright © All rights reserved

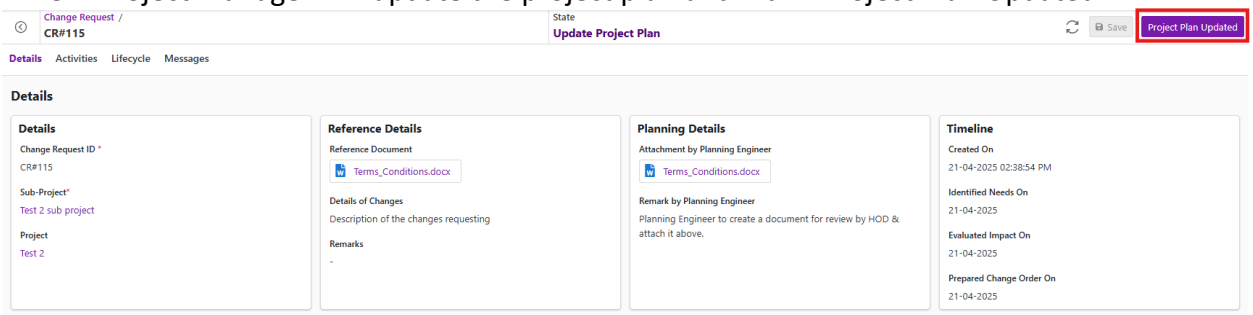
3. Planning engineer will create a document, attach it and send it to HOD for review by marking 'Submit for Approval'.



4. HOD reviews the documents and mark 'Change Order Approved' it.



5. Project manager will update the project plan and mark 'Project Plan Updated'



6. Once changes are done the Project manager can now mark "Change Completed'. Which also marks the end of the lifecycle for the Change requests.

## 3.3 Document Center

User Roles:

- Upload & Edit: Project manager, Planning Engineer, SMEs
- View only: Site engineer, Management Team and Business Team

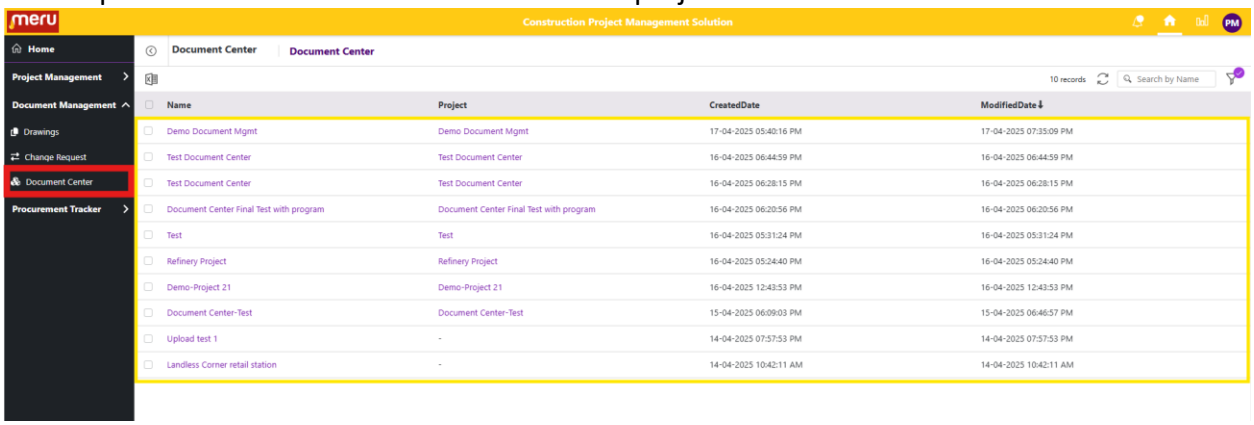
Purpose: Organize and store documents in structured folders and subfolders for easy access.

### 3.3.1 Creation of a Document center for a Project

When a new project is created in Protrak, a dedicated Document Center is automatically generated in the background for that project. This process may take approximately 6–7 minutes as the system sets up all the required subfolders.

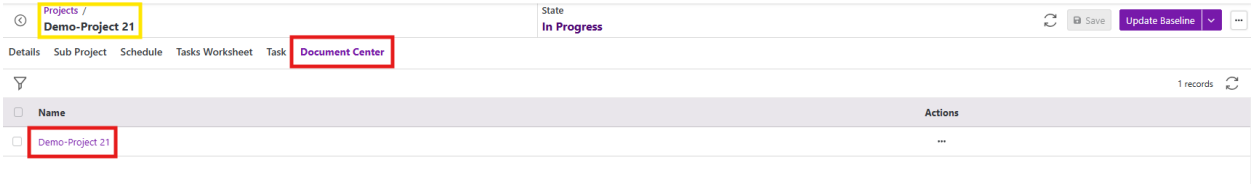
Once created, the Document Center can be accessed in the following two ways:

1. Navigate to 'Document Center' tab under Document Management. And click on the particular document center instance of a project.



OR

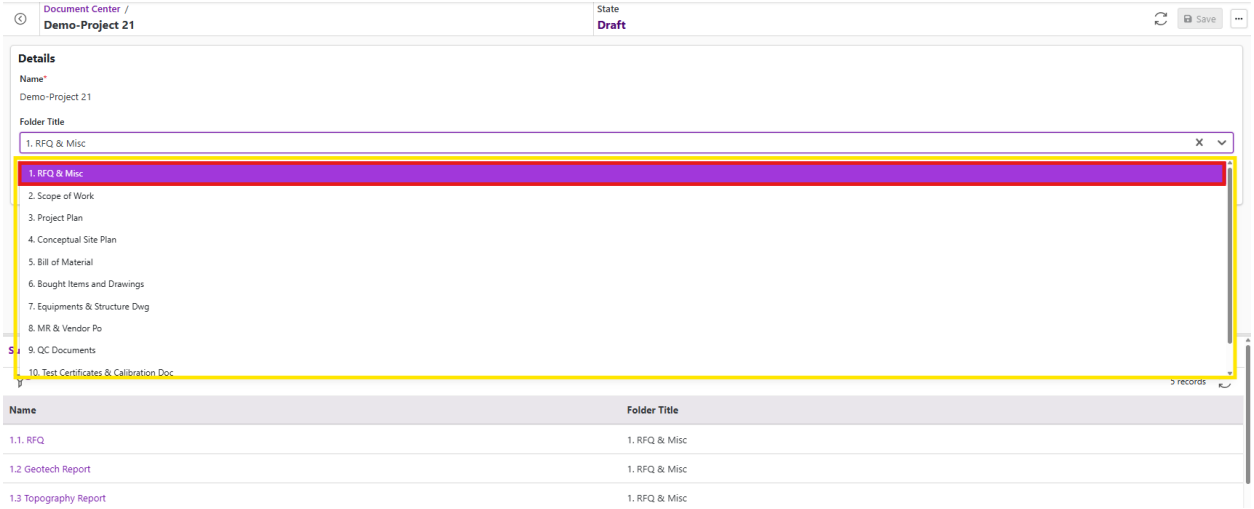
2. Navigate to a specific Project and click on 'Document Center' tab.



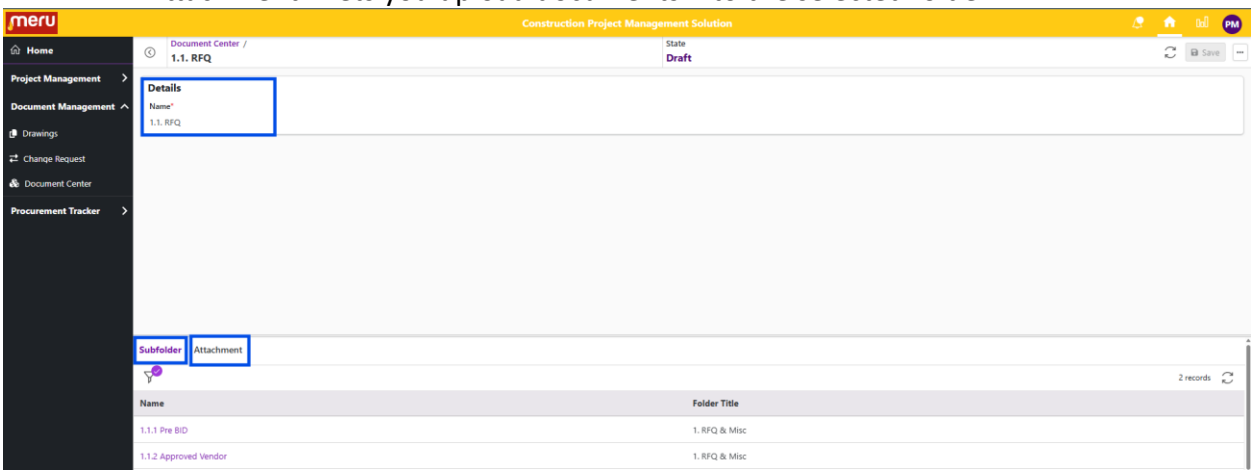
### 3.3.2 Navigating to folders, subfolders & Attachments

a) Open a particular Document Center and Select the 'Folder Title' from the dropdown.
b) On web, it gets auto saved & you can proceed further, but on mobile app the user will have to click 'Save' once the 'Folder Title' is selected.
c) On selection of 'Folder Title', its respective subfolders are listed below.

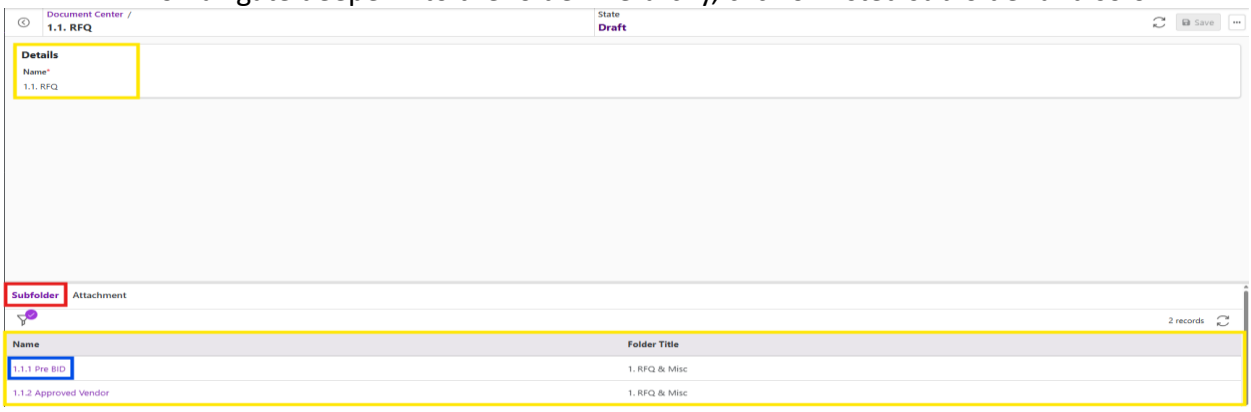
Copyright © All rights reserved



d) Two tabs are available:
- Subfolder – lets you navigate deeper into the folder hierarchy.
- Attachment – lets you upload documents into the selected folder.



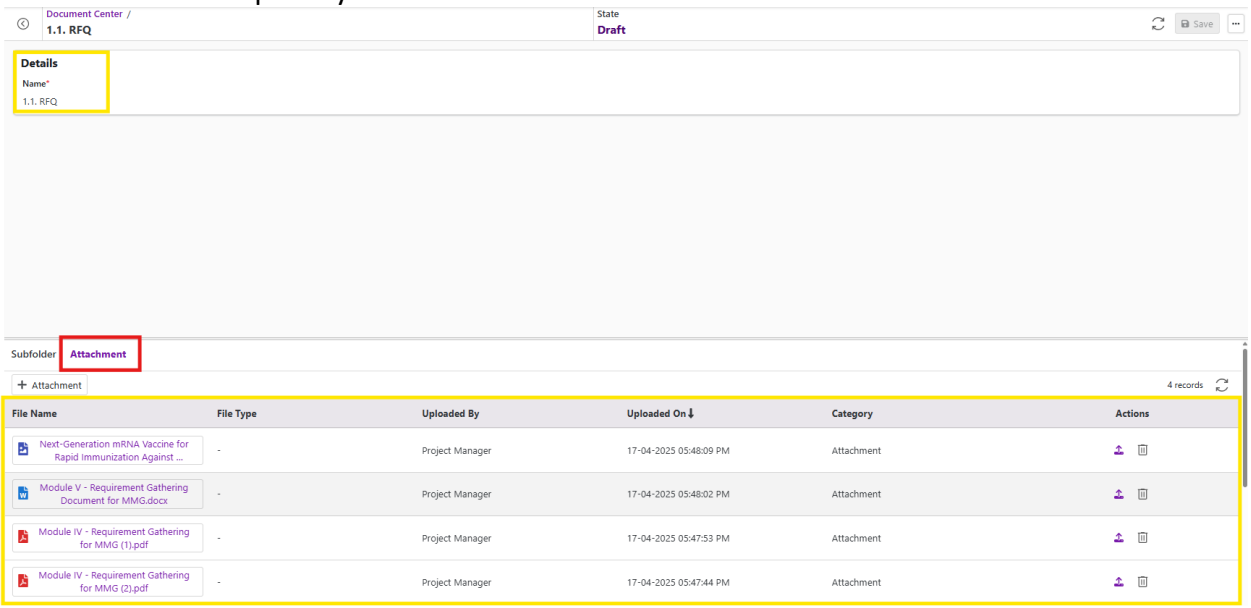
a) Navigating to sub folders
- Click on the 'subfolder' tab
- To navigate deeper into the folder hierarchy, click on listed subfolder and so on.



Copyright © All rights reserved 

**Attaching Documents**

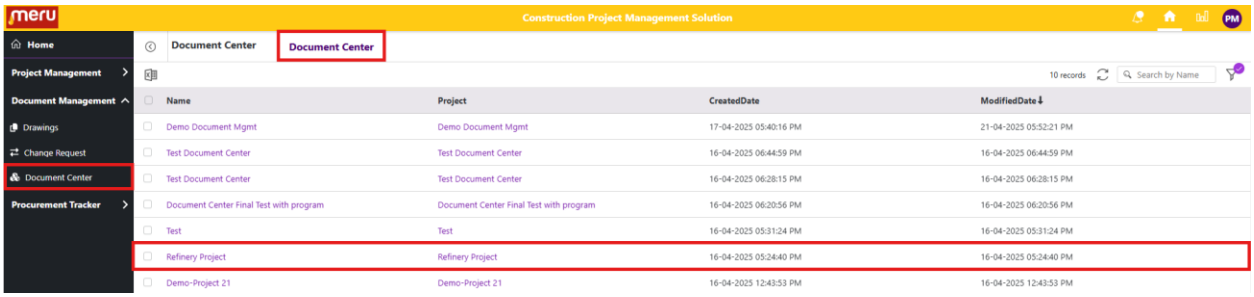
1. Navigate to the folder where you want to upload the file.
2. Click on the 'Attachment' tab.
3. Click '+ Attachment' or drag and drop files.
4. Select and upload your file.



## 3.3.3 Adding Subfolders for a Specific Project

**Applicable Roles:** Project Manager and Planning Engineer
**Dashboard Used:** *Document Center*

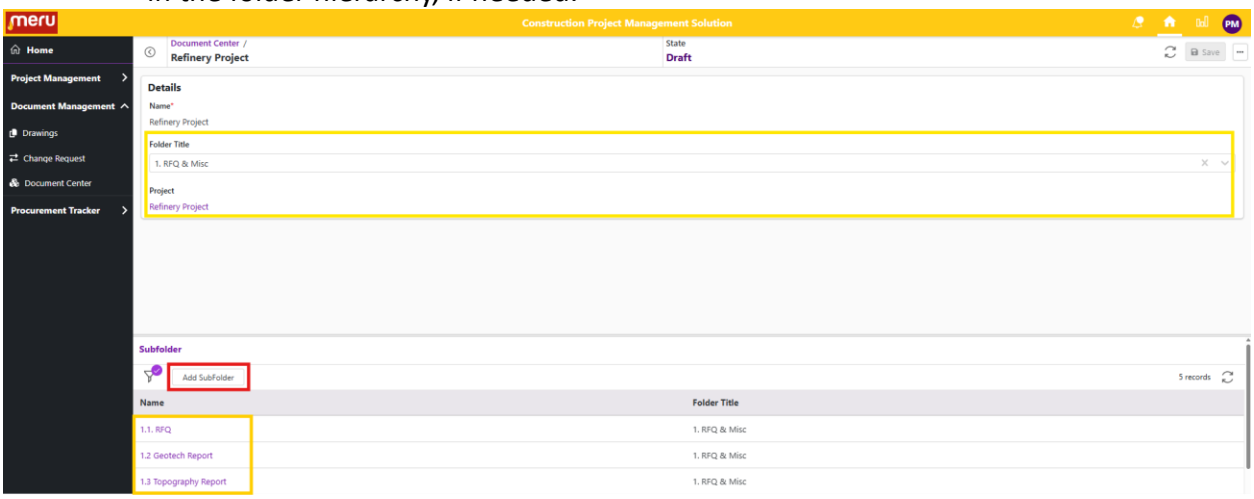
1. **Access Document Center**
   - Navigate to Document Center under the 'Document Management' module.
   - Open the 'Document Center' dashboard and select the project instance where the subfolder needs to be added.



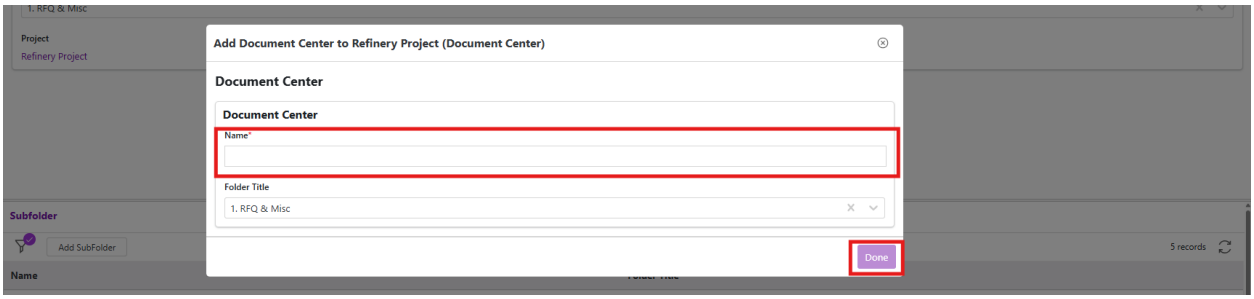
2. **Select Folder Title**
   - From the dropdown list, choose the 'Folder Title' under which you want to create a new subfolder.

Copyright © All rights reserved

3. **Add a Subfolder**
   - Click on the 'Add Subfolder' tab to initiate subfolder creation.
4. **Navigate Deeper**
   - You may also drill down into existing subfolders to create subfolders at deeper levels in the folder hierarchy, if needed.



5. **Name and Confirm**
   - Enter the name of the new subfolder with a prefix of outline numbering system (eg. 1.4, Subfolder name, 1.5 Subfolder name, etc.)
   - Click Done to save and create the subfolder.



***Note:*** *Only the subfolders created under the selected project will be visible for that project. They won't reflect in other projects or in the master folder structure.*

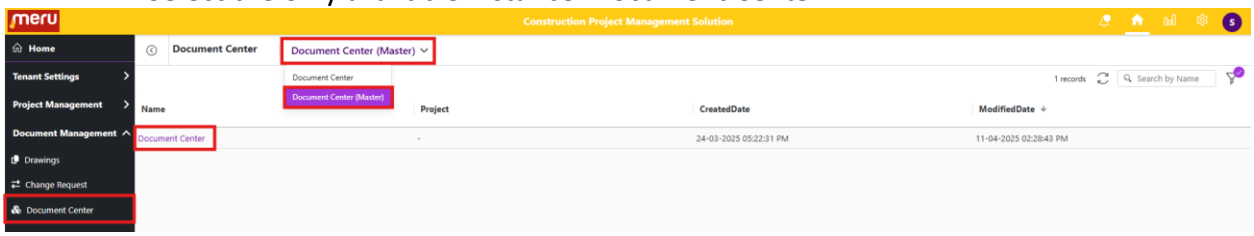
**Copyright © All rights reserved** 

## 3.3.4 Add Subfolder in the Master Setup

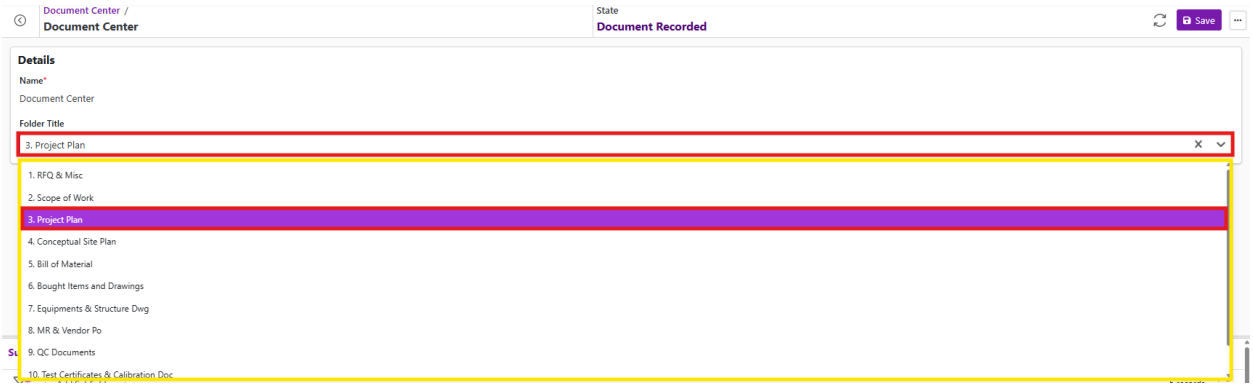
### *3.3.4.1 Creating Global Subfolders (For Future Projects)*

**Applicable Role:** Admin
**Dashboards Used:** *Document Center (Master)* and *Document Center*

1. **Access the Document Center**
   - Navigate to Document Management > Document Center
   - Open the dashboard titled Document Center (Master)
   - Select the only available instance: Document Center

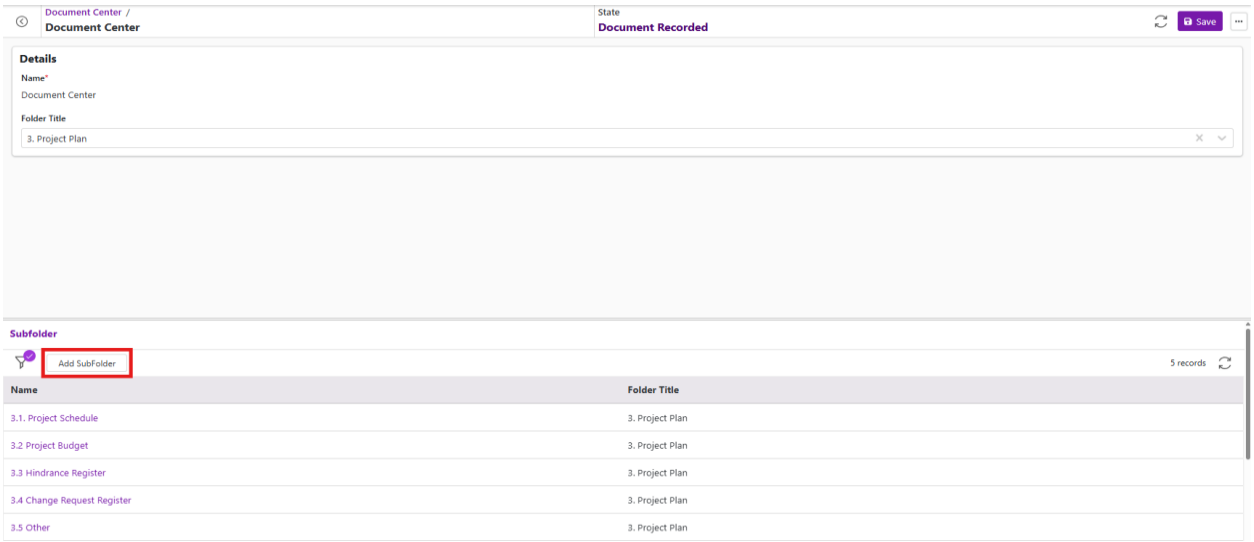


2. **Select the Parent Folder:** From the Folder Title dropdown, choose the folder under which the new subfolder needs to be created.

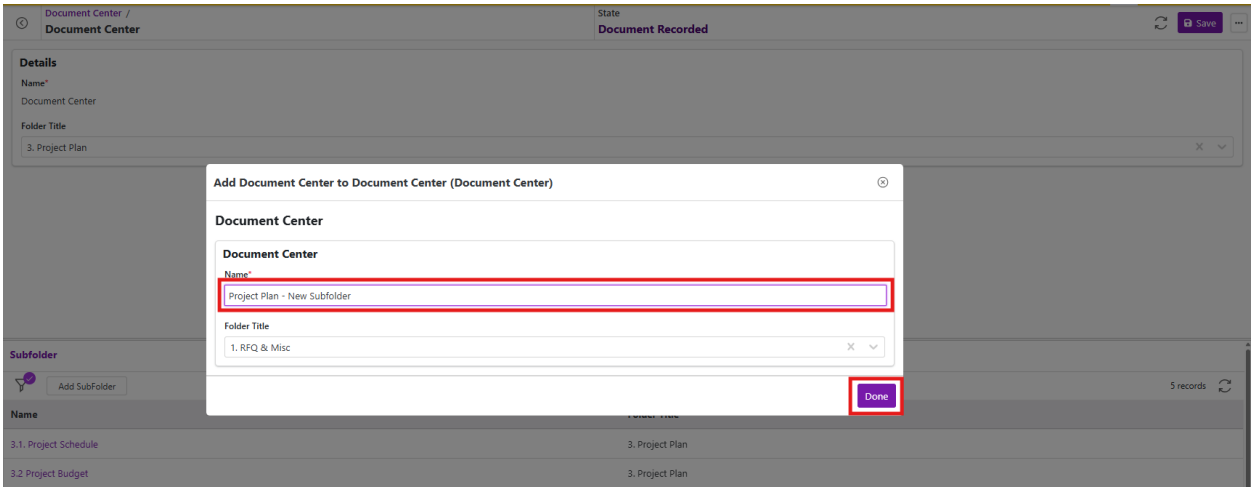


3. **Add a Subfolder:** Click on the Add Subfolder tab
4. **Navigate and Add Within Subfolders:**
   - You can also navigate into existing subfolders to create deeper levels of the folder hierarchy.
   - Select any existing subfolder to go one level deeper and use the Add Subfolder option there.

Copyright © All rights reserved 



5. **Enter Name and Save**
   - Enter the name of the new subfolder.
   - Click Done to save and create the subfolder within the master structure.



***Note:*** *These subfolders become part of the global folder structure and will reflect in all future project folders automatically.*

### *3.3.4.2 Creating Project-Specific Subfolders*

- The admin can also use the 'Document Center' dashboard to select an existing project.
- Under any Folder Title, the Admin can create project-specific subfolders, similar to what project managers and planning engineers can do.
- These subfolders will only be visible under the selected project and won't impact other projects or the master folder setup.

***Note: Only Admin has the option to delete sub-folders; Once deleted, the data is non-retrievable.***
